EXECUTIVE PROFILE

Enterprise Learning Strategy and Operations leader with 13+ years of experience designing the systems, governance, technology, and operating models that enable workforce capability at the enterprise scale. Recognized for partnering with executives to translate the business priorities into learning strategies that improve organizational effectiveness, operational excellence, and employee performance. Experienced leading enterprise learning transformation across aerospace, technology, and manufacturing environments including learning technology, vendor selection, governance, capability and skills frameworks, leadership development, measurement, and AI-enabled operational improvements.

PROFESSIONAL EXPERIENCE

Senior Learning Operations Program Manager — January 2026 - Present

Blue Origin | August 2022 – Present

- Owns the enterprise learning strategy, aligning AI enablement, learning operations, and workforce capability with evolving business needs.
- Established an enterprise Learning Community of practice and hold the Chair of the Learning Council whose sole purpose is connecting 1,400 disparate training teams and individuals, providing learning support packages, connections to professionals, and learning sessions, all while bridging stakeholders, solving issues, and removing redundancies.
- Built a custom internal application for role-playing soft skills to enable data-driven insights and decision-making within career advancement programs.
- Owns the enterprise measurement strategy, capturing ROI and VOI, and frameworks on KPIs, taxonomy, BARS, reporting structures, and executive dashboards.
- Developed and maintains enterprise learning operating procedures, governance, standards, prioritization frameworks, and service models for all training delivery.
- Directed enterprise LMS and LXP evaluation process including RFI and RFP development, vendor scorecards, requirements gathering, demonstrations, evaluations, and executive recommendations.
- Conducted enterprise learning technology ecosystem assessment, identifying platform ownership, utilization, investment, overlap, and future-state opportunities. Identified more than \$1M in technology consolidation opportunities supporting long-term learning strategy.

Senior Learning Partner — December 2023 – January 2026

- Led enterprise mandatory training transformation by reducing required learning by more than 50 % while significantly improving learner experience.
- Led cross-functional redesign of more than 500 OJT documents, partnering with senior leaders across EHS, Safety, Security, Quality, Facilities, and Operations to improve governance, reduce redundancies, and standardize the practices.

Internal Communications & Learning Lead — February 2023 – December 2023

- Developed the Lunar Permanence business unit's learning strategy, supporting onboarding of up to 150 employees per week, technical capability development in partnership with other BUs, created and led the annual Lunar leadership summit, and managed BU communications.
